Is your app an ass-kisser? By Kathy Sierra If your app was an employee, what kind of employee would it be? When it's employee performance review time, how would you rate it? These are just a few of the apps I've worked with recently... [Read More] » Software personality disorders from NevilleHobson.com

I had a big chuckle reading Is your app an ass-kisser, in which Kathy Sierra asks: If your app was an employee, what kind of employee would it be? When its employee performance review time, how would you rate it? These are just a ... [Read More] Confession: I am a bona fide, Grade A, certified, card-carrying, award-winning ass-kisser. I have been known far and wide as such, ever since I sat so close to my high school history teacher's desk that when I leaned forward to cup my chin in my hands, my elbows were on his desk and not my own. I laughed uproariously at my college fiction teacher's jokes. I complimented my academic advisor's ties. Still, I always had this sense that I annoyed them, and it was a mystery to me. How could they not love me? I was always there, ready to help or volunteer or pitch in. Seriously. I was pretty sure I was a dream. "Don't believe most of the stuff you see in the movies," Oliver Stone told a Brown audience on December 1. Hollywood, said the director of Platoon and JFK, is controlled by "chickens" and "concentration camp guards." History books are no better, Stone warned, in a speech that was part of the Ivy Film Festival. "Most historians are ass-kissers and tenure seekers," he said.
