8 Ball Pool APK Softonic: A Review

If you are looking for a fun and addictive pool game for your Android device, you might have come across 8 Ball Pool APK Softonic. But what is this app and how does it compare to other pool games? In this article, we will review 8 Ball Pool APK Softonic and give you some tips and tricks to improve your game. We will also explore some alternatives to 8 Ball Pool APK Softonic in case you want to try something different.

What is 8 Ball Pool?

8 Ball Pool is one of the most popular online pool games in the world. It is developed by Miniclip, a company that specializes in web and mobile games. 8 Ball Pool has millions of players from different countries and regions, who compete in various tournaments and leagues.

A popular online pool game

8 Ball Pool is a game that simulates the real-life pool game of the same name. The game follows the standard rules of 8-ball pool, where you have to pocket all the balls of your assigned group (solids or stripes) before pocketing the black 8-ball. You can play against other players online or against the computer in different difficulty levels. You can also chat with your opponents and send them emojis and gifts.

Different game modes and features

8 Ball Pool has several game modes and features that make it more exciting and challenging. Some of them are:

- **1v1 mode:** This is the classic mode where you play against another player in a single match. You can choose from different tables and stakes, depending on your skill level and budget.
- **Tournament mode:** This is where you can join a tournament with up to 8 players

and compete for a bigger prize pool. You have to win every match to advance to the next round until you reach the final.

- **9 Ball mode:** This is a variation of pool where you have to pocket the balls in numerical order, from 1 to 9. The first player to pocket the 9-ball wins the match.
- **Minigames:** These are small games that you can play to earn extra coins and cash. Some of them are Spin and Win, Scratch and Win, Hi-Lo, and Lucky Shot.
- **Cue shop:** This is where you can buy new cues with different stats and designs. You can also upgrade your cues with coins or cash to improve their performance.
- **Pool club:** This is where you can join or create a club with other players and participate in club events and tournaments. You can also chat with your club members and share gifts.

How to play 8 Ball Pool

To play 8 Ball Pool, you need to have an internet connection and a Miniclip or Facebook account. You can download the app from Google Play Store or from Softonic website. Once you have installed the app, you can start playing by following these steps:

1. Select a game mode from the main menu.
2. Select a table and stake from the available options. You can also create your own table and invite your friends to join.
3. Wait for an opponent to join or accept your invitation.
4. When the match starts, you will see the pool table on the screen. You can adjust the angle and power of your shot by dragging the cue on the bottom right corner. You can also use the buttons on the top left corner to zoom in, zoom out, or switch the camera view.
5. To take a shot, release the cue and watch the balls move on the table. You can also use the buttons on the bottom left corner to add spin, aim, or use a power-up.
6. When it is your turn, you will see a timer on the top right corner. If you run out of time, you will lose your turn and give a ball in hand to your opponent.
7. When you pocket a ball, you will earn some coins and points. You can also earn bonuses for making trick shots, potting multiple balls, or winning streaks.
8. The match ends when one player pockets the 8-ball or when one player runs out of time or forfeits. The winner gets the stake and some extra coins and cash.
