How to Download Logic Pro 9 Trial Version for Free

If you are looking for a professional audio production software for your Mac, you might want to try Logic Pro 9. Logic Pro 9 is a powerful and versatile digital audio workstation that lets you record, edit, mix, and master your music with ease. You can also use Logic Pro 9 to create beats, compose songs, produce soundtracks, and more.

But before you buy Logic Pro 9, you might want to test it out first. Fortunately, Apple offers a free trial of the latest version of Logic Pro for 90 days. You can download the trial version from the official website and use it without any limitations or restrictions.

Here are the steps to download Logic Pro 9 trial version for free:

1. Go to https://www.apple.com/logic-pro/trial/ and click on the "Download now" button[^1^].
2. A disk image file named "LogicProTrial.dmg" will start downloading. Wait until the download is complete.
3. Open the disk image file and double-click on the installer package named "Install Logic Pro Trial.pkg". You will be guided through the installation process.
4. If you are using a previous version of the Logic Pro trial, you will be able to use this version free for an additional 90 days[^1^].
5. Once the installation is done, you can launch Logic Pro 9 from your Applications folder or Dock.

Congratulations! You have successfully downloaded and installed Logic Pro 9 trial version for free. You can now enjoy all the features and functions of Logic Pro 9 for 90 days. After that, you will need to purchase a license to continue using it.

If you need more help or resources on how to use Logic Pro 9, you can visit the [Logic Pro Resources page](#) for tutorials, tips, guides, and more[^1^]. You can also check out some online courses or books on Logic Pro 9 to learn more about its capabilities and potential.

Happy music making!

Logic Pro 9 is not just a recording software. It also comes with a huge collection of instruments,

effects, loops, and samples that you can use to create any kind of music you want. Whether you are into rock, pop, hip-hop, EDM, or classical music, Logic Pro 9 has something for you.

Some of the features that make Logic Pro 9 stand out are:

- **Flex Time**: This feature allows you to manipulate the timing and tempo of any audio recording with ease. You can stretch, compress, move, or snap audio regions to fit your project without affecting the pitch or quality.
- **Flex Pitch**: This feature allows you to edit the pitch of any audio recording with precision. You can correct out-of-tune vocals, create harmonies, or change the melody of any instrument with a few clicks.
- **Drummer**: This feature allows you to add realistic and customizable drum tracks to your project. You can choose from different genres, styles, and drummers, and tweak their performance to suit your song.
- **Live Loops**: This feature allows you to create music by triggering and arranging loops in real time. You can experiment with different combinations of sounds and effects, and record your performance as a linear track.
- **Remix FX**: This feature allows you to add creative effects and transitions to your live loops or tracks. You can use filters, gates, repeaters, vinyl scratches, and more to spice up your music.
- **Logic Remote**: This feature allows you to use your iPhone or iPad to control Logic Pro on your Mac. You can use Multi-Touch gestures to play software instruments, mix tracks, and control features like Live Loops and Remix FX from anywhere in the room[^1^].

These are just some of the amazing features that Logic Pro 9 offers. There are many more tools and functions that you can explore and use to make your music sound professional and unique.
