

## Temple Run Endless Mod Apk [UPDATED]

# Temple Run Endless Mod APK: A Thrilling Adventure Game for Android

Do you love adventure games that challenge your skills and reflexes? Do you want to experience the thrill of running away from evil monkeys in a mysterious temple? If yes, then you should try Temple Run Endless Mod APK, a modified version of the popular Temple Run game that offers unlimited coins, gems, and other features. In this article, we will tell you everything you need to know about Temple Run Endless Mod APK, including what it is, how to download and install it, how to play it, and why you should play it.

## What is Temple Run Endless Mod APK?

Temple Run Endless Mod APK is a modified version of the original Temple Run game, which is one of the most downloaded and played games on Android devices. The game was developed by Imangi Studios and released in 2011. It has been downloaded over one billion times and has spawned several sequels and spin-offs.

### The original Temple Run game

The original Temple Run game is an endless runner game that puts you in the shoes of an explorer who has stolen a cursed idol from a temple. As soon as you grab the idol, you are chased by a horde of angry monkeys who want to get it back. You have to run for your life and avoid various obstacles such as gaps, fire, traps, and more. You also have to collect coins and gems along the way, which you can use to buy power-ups, characters, and other items. The game is simple to play but hard to master. You have to swipe left or right to turn, swipe up to jump, swipe down to slide, and tilt your device to move sideways.

### The features of Temple Run Endless Mod APK

Temple Run Endless Mod APK is a modified version of the original Temple Run game that offers some extra features that make the game more fun and exciting. Some of the features are:

- Unlimited coins and gems: You can get unlimited coins and gems in the game, which you can use to buy anything you want without worrying about running out of them.
- Unlocked characters and items: You can unlock all the characters and items in the game, which gives you more options and variety in your gameplay.
- No ads: You can enjoy the game without any annoying ads that interrupt your gaming experience.
- No root required: You don't need to root your device to install and play Temple Run Endless Mod APK.

## How to download and install Temple Run Endless Mod APK on your device?

If you want to download and install Temple Run Endless Mod APK on your device, you need to follow some simple steps. But before that, you need to make sure that your device meets some requirements.

## **The requirements for Temple Run Endless Mod APK**

Here are the requirements for Temple Run Endless Mod APK:

- Your device must have Android 4.1 or higher version.
- Your device must have at least 100 MB of free storage space.
- Your device must allow installation from unknown sources. To enable this, go to Settings > Security > Unknown Sources and toggle it on.
