If you are looking for a way to make your Android status bar more functional and stylish, you might want to try Super Status Bar Premium V0.11.3b.apk. This is a modded version of the popular app Super Status Bar, which lets you customize your status bar with various features and icons.

Super Status Bar Premium V0.11.3b.apk allows you to change the background, icons, gestures, brightness, volume, notification ticker text, battery bar and more of your status bar. You can also apply styles such as iOS 14, MIUI 12 and Android R to your status bar.

Some of the benefits of using Super Status Bar Premium V0.11.3b.apk are:

- You can easily adjust the brightness and volume by swiping along the status bar.
- You can bring back the notification ticker text that shows a preview of your notifications along the status bar.
- You can use simple gestures such as tap, double tap, long press and swipe to perform actions such as turning off the screen, opening apps, taking screenshots, toggling rotation and more.
- You can display your battery level as a small bar along the status bar that animates when charging.
- You can hide or change the color of any status bar icon that you don't want to see.

To install Super Status Bar Premium V0.11.3b.apk, you need to have an Android device running Android 5.0 or higher. You also need to enable unknown sources in your settings to allow installing apps from outside the Google Play Store.

Here are the steps to install Super Status Bar Premium V0.11.3b.apk on your Android device:

1. Download Super Status Bar Premium V0.11.3b.apk from a trusted source such as [^1^] or [^2^]. Do not download it from unverified sources such as [^3^] as they may contain malware or viruses.
2. Locate the downloaded file on your device and tap on it to start the installation process.
3. Follow the instructions on the screen and grant the necessary permissions for the app to work properly.
4. Once the installation is complete, open the app and enable it in the menu.
5. Customize your status bar according to your preferences by accessing the different options in the app.
