# How to Activate Netfabb 2018 for 3D Printing

Netfabb 2018 is a powerful software for 3D printing and additive manufacturing. It allows you to design, optimize, simulate, and prepare your 3D models for various printing technologies. Netfabb 2018 comes in different editions: Basic, Standard, Premium, and Ultimate. Each edition has different features and capabilities to suit your needs.

To use Netfabb 2018, you need to activate it with a valid license. There are two ways to activate Netfabb 2018: using a serial number or using a trial license. In this article, we will explain how to activate Netfabb 2018 using both methods.

## Activate Netfabb 2018 with a Serial Number

If you have purchased Netfabb 2018 or have received a voucher code from a partner or reseller, you can activate Netfabb 2018 with a serial number. To do this, follow these steps:

1. Launch Netfabb 2018 using the provided shortcuts.
2. On the Let's Get Started page, click Enter a Serial Number.
3. Agree to the Autodesk Privacy Statement.
4. On the Product License Activation page, enter your serial number and click Next.
5. If you have a voucher code, enter it in the Voucher Code field and click Next.
6. Enter your name, company name, email address, and hardware ID in the corresponding fields and click Next.
7. You will receive an email with an activation code. Copy and paste the activation code in the Activation Code field and click Next.
8. Netfabb 2018 is now activated and ready to use.

## Activate Netfabb 2018 with a Trial License

If you want to try Netfabb 2018 before buying it, you can activate it with a trial license. A trial license allows you to use Netfabb 2018 for 30 days with full functionality. To activate Netfabb 2018 with a trial license, follow these steps:

1. Download Netfabb 2018 from the Autodesk website.
2. Launch the downloaded installer and wait for it to finish installing. Follow the instructions on-screen.
3. Launch Netfabb 2018 using the provided shortcuts.
4. On the Let's Get Started page, click Enter a Serial Number.
5. Agree to the Autodesk Privacy Statement.
6. On the Product License Activation page, click Run to start the trial period.
7. Netfabb 2018 is now running on a trial license. You can use it for 30 days with full functionality.

Note: A trial license can only be launched once and is not reset by reinstallation. However, newer versions, such as 2018.0 vs. 2017.3, usually count as new products and can thus launch a new trial period.

# How to Use Netfabb 2018 for 3D Printing

Once you have activated Netfabb 2018, you can start using it for your 3D printing projects. Netfabb 2018 has a user-friendly interface that allows you to access various tools and features. Here are some of the main functions of Netfabb 2018:

- Import and export 3D models in various formats, such as STL, OBJ, 3MF, AMF, etc.
- Repair and optimize 3D models for printing, such as fixing holes, gaps, overlaps, etc.
- Modify and edit 3D models, such as scaling, rotating, cutting, hollowing, etc.
- Analyze and simulate 3D models for printing, such as checking wall thickness, stress, distortion, etc.
- Prepare and slice 3D models for printing, such as setting print parameters, supports, infill, etc.
- Send and monitor 3D models to your printer or cloud service.

To learn more about how to use Netfabb 2018 for 3D printing, you can refer to the online help and tutorials available on the Autodesk website. You can also join the Netfabb community forum and share your questions and feedback with other users and experts.

## Conclusion

Netfabb 2018 is a powerful software for 3D printing and additive manufacturing. It allows you to design, optimize, simulate, and prepare your 3D models for various printing technologies. To use Netfabb 2018, you need to activate it with a valid license. You can either use a serial number or a trial license to activate Netfabb 2018. Once activated, you can start using Netfabb 2018 for your 3D printing projects. We hope this article has helped you understand how to activate and use Netfabb 2018 for 3D printing.
