You can draw one or three cards from the stock at a time. You can move cards from the tableau to the foundations or to other tableau piles, as long as they are in descending order and alternating colors. You can also move cards to empty tableau spaces. You win when all four foundations are complete.

Spider Solitaire

Spider Solitaire is a challenging solitaire game that requires more strategy and skill. The goal is to remove all the cards from the tableau by creating runs of cards in descending order from King to Ace of the same suit. You can draw one card from each of the ten stock piles at a time. You can move cards from one tableau pile to another, as long as they are in descending order and of the same suit. You can also move a group of cards in sequence.
